PA System Installation Proposed For Memorial Hall

LAC LA BICHE — At the Nov. 13 meeting of town council, an estimate for installation of a public address system in the Memorial Hall was examined and discussed. Council favored making the installation as soon as possible but action was withheld until the financial position of the town could be reveiwed more closely.

A building permit for a new dwelling was passed with estimated cost set at $10,000 and construction to commence at once.

A letter was read from the Lac la Biche Home and School Association asking that the town call for a plebiscite on water fluoridation. In the opinion of the council, a greater interest in the subject must be shown by residents of the town before a plebiscite would be justified. While council was not opposed to fluoridation, they felt that until a larger percentage of the town's residents indicate their wishes, no action should be taken.

The secretary was instructed to write the Lac la Biche Citizen's Band congratulating them on their excellent performance at the Remembrance Day parade and also to write the Lac la Biche Mink Breeder's Association congratulating them on the holding of the Provincial Live Mink Show in Lac la Biche.

At the close of the meeting which was attended by all members, the council on the invitation of the Sea Cadet Committee, paid a visit to the newly improved Sea Cadet building.

Farm Management Courses For Boyle And Athabasca

By GEORGE L. GODEL, District Agriculturist

A weekly course in applied farm management will be held at Boyle and Athabasca January to March, 1963.

Farmers today face an ever-increasing demand for higher income to meet the challenge of modern family living. At the same time farmers also experience gradually slimmer margins of profit because the cost of things they buy is rising faster than the price of what they have to sell. To meet this situation necessitates a steady and a very substantial increase in the size of farm operations and greater efficiency. As a result, the modern farmer must now have, along with many other skills, a working knowledge of farm economics, and he must be familiar with farm bookkeeping, both records of production and accounts.

To help meet this need, farm management courses in one form or another are being offered in ever-increasing number across Canada. For the County of Athabasca, two identical courses will be given by the Alberta Department of Agriculture, if enough people express the desire to attend. One would be held at Boyle and the other at Athabasca. Both courses would consist of eight periods of 2½ hours each, once a week for eight weeks, from 1:00 to 3:30 p.m. A fee of $2.00 per farm is proposed to help defray accommodation.

Each course will deal at length with farm accounting and other needed farm records. Income requirements, sources of credit, business analysis, budgetting, are among other topics to be dealt with. These courses are open to both men and women, but best results will be secured when man and wife attend as a team. Anyone interested kindly contact the District Agriculturist's office, Athabasca. Telephone, write, or call in person, but please do not delay indicating if you wish to take the course.

A course will be held only, if a minimum of twelve farms are represented.

GIRLS' 4-H ACTIVITES:

This year we had four Garden Clubs. These were: Smith — with Mrs. Ross Parsons and Mrs. S. Cole as leader. Amber Valley — Mrs. N. G. Murphy and Mrs. S. R. Mapp. Flatbush — Mrs. I. Andres and Mrs. S. Eymundson. Grassland — Mrs. M. Duniec and Mrs. O. Jenkins.

B. McCutcheon

In August we had Garden Tours and Achievement Days were held early in September.

There are now ten 4-H Clothing Clubs and one Foods Club carrying on in my district.

They are:

Boyle 4-H Clothing Club — Mrs. P. Letersky, Miss D. Knight, Mrs. B. Andruski.

Dapp 4-H Clothing Club — Mrs. M. Ohrn, Mrs. I. Glebe.

Dunstable 4-H Clothing Club — Mrs. M. Maskell, Mrs. V. Berg.

Flatbush 4-H Clothing Club — Mrs. E. Garry, Mrs. R. Richardson, Mrs. R. Aske.

Grassland 4-H Clothing Club — Ms. M. Duniec, Mrs. J. Luchka, Mrs. J. Verney.

Highridge 4-H Clothing Club — Mrs. E. Williams, Mrs. A. Tomashewski.

Linaria 4-H Clothing Club — Mrs. O. Hadley, Mrs. M. Weise.

Manola 4-H Clothing Club — Mrs. S. Smart, Mrs. B. Wilson.

Smith 4-H Clothing Club — Mrs. F. Reinholt, Mrs. F. Olson, Mrs. L. Sloan.

Tawatinaw 4-H Clothing Club — Mrs. G. Van Malson, Mrs. W. Clapperton.

Rochester 4-H Foods Club — Mrs. I. Morgan, Mrs. J. Germundson.

To the following tribute I add my appreciation for the above volunteers. Their task is not easy but it is very worthwhile.

WHAT IS A 4-H CLUB LEADER?

Somewhere between the sternness of a parent and the comradeship of a pal is that mysterious creature we call a 4-H leader.

These leaders come in all shapes and sizes and may be male or female. But they all have one thing n common — a glorious twinkle in their eyes!

4-H Leaders are found everywhere — at rallies, 4-H exhibits, square dances, and talent shows. They always are preparing for, sitting through, participating in, or recuperating from a meeting of some kind.

They are tireless consumers of muffins, expert at taking knots out of thread, peerless coaches and spend hours on the telephone.

A 4-H Leader is many things — an artists making a float for the Dairy Day Parade, a doctor prescribing for an underfed calf a counselor at camp, a lawyer filling out reports, and a shoulder to cry on when that dress just won't fit.

Nobody else is so early to rise and so late to get home at night. Nobody else has so much fun with so many boys and girls.

We sometimes forget them, but we can't do without them. They receive no salary, but we can never repay them.

They are angels in aprons, saints in straw hats. Their only reward is the love of the kids and the respect of the community. But when they look around them at the skills they've taught, and the youth they've built, there's an inner voice somewhere that says, "Well Done".

The easiest way to find out what a person knows is to let him talk aloud.

Teenagers Shoot Lynx At McRae

McRAE—When 13-year-old Wayne Erasmus went out hunting squirrels on his dad's farm the other day, he suddenly encountered a lynx. Luckily he had his dog with him, which chased the lynx up a tree, after which Wayne was able to shoot him.

Proudly he took it home with him to show his parents. This was the second lynx shot on the Erasmus farm, as Wayne's dad, Peter, shot one two weeks ago.

This is also the third time that a teenager has shot a lynx in this district. Miss Mary Abramic, a 15-year-old Grade 9 student, was the first one to kill two lynx on her dad's farm. Several weeks ago, Harold Whitford, a 14-year-old Grade 8 student, also shot two on the Thompson place.

Women In Kitchen Are Artists, Home Economist Tells Group

HYLO—"Artists in Aprons" was presented through the courtesy of the Co-operative Women's Guild, the Co-op Wheat Pool and Local Co-op. After a brief address Mr. H. Bowles introduced Mrs. Mary Costigon, home economist from Edmonton, who was in charge of the cooking and baking demonstration held in the Hylo School on the afternoon of Saturday, November 10.

Mrs. Costigon insisted that women in the kitchen were really as much artists as any painters.

In explaining the basic steps of a tea biscuit mix she gave many hints and tips regarding the importance of sifting, measuring, using cold ingredients and good quality products. Mostly Co-op products, which are of a high quality, were used in the demonstration. From a simple biscuit mix, Mrs. Costigon developed spicy apple twists; a bacon cheese bubble loaf; corn ham scallop with cheese swirls and crab au gratin, all very luscious treats. From a basic sweet dough she came up with mouth-watering date twists and had samples of rose buds; poppy seed knots, rolled oat bread; boston brown bread; coconut macaroons; pine apple cheese cake and dairy whip.

Mrs. Costigon was pleased to answer any questions that the ladies wished to ask.

During intermission, Mrs. Costigon withdrew into the kitchen to help Mrs. W. Lozinski and Mrs. O. Pivin complete preparations for luncheon.

Mr. Bert Marsh, from the Co-op Wheat Pool explained the highly mechanized process of modern flour milling. He informed the audience that the statement 'presifted flour' is just a gimick for the amount of handling a sack of flour goes through until it reaches your local store. It becomes rather firmly packed and very much in need of sifting for good baking results.

Next, ten tickets were drawn for the door prizes and the following people were the lucky winners of the prize of a 10 pound bag of flour each: Steve Pohranychny; Steve Naherny; Nick Dupelko; Mike Tichonuk; T. Thompson; Alex Moshuk; Walter Lozinski; Miss Cecile Meardi and Mr. and Mrs. George Michetti.

Coffee was then served and samples of the prepared food were enjoyed.

The cooking and baking demonstration proved to be a huge success. The experienced cooks were pleased with the wonderful new ideas and a few more such cooking and baking demonstration along with mon's kitchen knowledge would indeed make the future young cooks, "Artists in Aprons."

"AWARD WINNER" — Ordinary Seaman Edward Thiessen, sonf of Mr. and Mrs. G. J. Thiessen, 11423 77 Ave., Edmonton, has won the "Best All-round Man" award on graduation from a 15-week new entry training class at HMCS Cornwallis, near Digby, N.S. MR. BERT McDONALD, left and Mr. Norm Wright in the poorest area of Hong Kong. The dilapidated sampans in the background are the homes of the poor. Most of them are completely rotten and there are no facilities for sanitation.

Tourists Find In Japan, Hong Kong Extremes Of Poverty And Wealth

By Mrs. Pat MacKay

REDWATER — Mr. Norm Wright and Mr. Bert McDonald of Redwater have returned from a month's holiday in the Orient. The tour was sponsored by the Edmonton Flying Club and was arranged by the Nippon Express Company in Tokyo.

En route to Japan, via the northern route, their aircraft encountered strong headwinds and was forced to land at the United States Air Force base at Misawa in northern Japan. It was the first commercial aircraft to land at this field in seven years and, because of strict security restrictions a squad of armed guards formed a safety cordon around the aircraft, guards were also placed inside to prevent anyone from leaving the plane. After some discussion the necessary fuel was obtained and the aircraft with all its passengers still somewhat taken aback by the security measures, continued to Tokyo.

The tour was planned for a leisurely pace, giving ample time to see the country. Because of the efficiency of the electrical train system in Japan it was simple, comfortable and speedy to see any part of Japan one wished to visit. Although a westerner is immediately conscious of the terrible overcrowding of this small country, the housing shortage and the poverty one finds, he can not help but be impressed with the eagerness of the people to advance and the speed with which they are adapting Western industrial methods to their advantage. Because of the vast overcrowding, manpower is still in abundance and in most cases it is woman power that you find turning the great industrial machine of Japan. Among the factories which Mr. McDonald and Mr. Wright were fortunate to tour was the great Sony factory which produces Sony transistor radios and equipment which are familiar to most Canadians. Here they were told that, although they had tried to employ men, they had been forced to hire more women when it was found that the men could not stand the delicate work for more than a short length of time whereas it doesn't bother the women at all.

PEARL FISHERIES

They also visited the famous island of pearl divers. Here 7000 women are employed diving for oysters. They are all dressed in white and simply amaze spectators with the speed with which they complete their dive. Each diver holds a reed in her mouth and when she reaches the surface she emits air through this reed giving an eerie whistle and creating a strange atmosphere. This is the home of the world famous Miki Moto pearls. The tourist may come away at least a pearl richer if he is lucky in a unique type of "fish pond" which is operated here. For a nominal charge you point out the oyster of your choice and the diver goes for it. If, when you open your oyster, you find a pearl it is yours. Although the white pearl is the one which comes most easily to mind, colors vary widely with a lustrous black pearl being much sought after.

EDUCATION

Throughout Japan one can see the evidence of a fine educational system. After talking to many children from the primary grades to the university level, Mr. McDonald and Mr. Wright found that there was a tremendous desire on the part of the children to talk with westerners to study their speech and to hear of their country. All school age children wear a neat blue and white uniform which is very attractive. The Japanese child is well travelled in his own country. At some places one could see hundreds of buses waiting for their small charges. These are school planned tours of Japan and what impressed our two visitors was the good behaviour and quietness of the children. If it had been Canadian children the noise would have deafened you in many cases but here it was very quiet.

Throughout their stay in Japan they found a special warmth reserved for Canadians and when they asked their guide, a young Japanese university student, the reason for this they were told that among many reasons was the fact that Japanese parents are eternally grateful to the Canadian government for large shipments of Salk Vaccine which was responsible for quelling a violent outbreak of polio in Japan some years ago. The Japanese are fond of their children and take good care of them but unfortunately the crowded conditions, the poverty of the people and, in most cases, the lack of adequate sanitation facilities, make it a fertile area for infection of all types.

Japan is a world of vivid contrasts of the old and the new, of poverty and opulence, of eagerness to greet the visitor and quiet fear that he will find their precious traditions amusing and laugh at them. Out of all this perhaps one thing stands out more vividly than anything else to the western visitor and that is the fact that Japan is very much a "man's world." In society and in the home the man is the king & the women are there to see that he is happy. Despite an ever growing trend to western dress, especially for the Japanes career girls, an undertone of the tradition female inferiority is still retained.

HONG KONG

From Tokyo the tour proceeded to Hong Kong, that small stronghold of the democracies in otherwise Communist China. Here again the vivid contrasts of old and new, rich and poor were present at all times. Ultra-modern apartment buildings tower majestically over the rotten sampans beached on the sand which are the only homes so many of the poor know. The stench which is the trade mark of poor sanitation and disease hovers over this magnificent city and the visitor is appalled to find under-nourished children begging or trying to sell porno- Merely living until tomorrow is the graphical material everywhere. goal of so many of the citizens of Hong Kong.

Communist China stands like a giant to the north and the armed guards patrolling the border are visible on the other side of no man's land. Every night 10,000 northern Chinese come into Hong Kong from the north in hopes of escaping the tyranny and poverty of their own land and every morning 10,000 of these refugees have to march right back again because there is nowhere for them to go. The heavy gloom of the situation permeates the air to such an extent that no amount of outward gaiety can hide the heavy heart of the Chinese people.

From Hong Kong the tour went back to Tokyo and then back to Canada, via the romantic islands of Hawaii.

Mrs. B. Williams Reports On Workshop At UCW Meeting

ELK POINT — The November meeting of the United Church Women was held at the home of Mrs. R. Barwick, with 17 members and one visitor present.

School For Mentally Handicapped Children Opens In Vegreville

Wednesday, November 14 at 2:30 p.m., the new School for Retarded Children opened in Vegreville. The community was invited to attend this function. An effort was made to serve lunch and coffee and no donations were accepted on that day.

The construction of this school may be unique for public buildings. All of the costs, to be borne locally, have been provided for by completely voluntary and unrequested donations. This is the mark of a truly outstanding community. The basic school furniture has also been voluntaritly purchased and all utilities have been provided to date. Certain equipment is still required but no direct request will be made.

Some indication of what can be done to make retarded children useful members of society may be gathered from the fact that these children in a sheltered workshop in one Ontario city assembled 2,000,000 telephone components without a single mistake. The company that let the contract was so happy with the quality of workmanship that they paid a bonus and held a large party for all of those who worked on the job.

Mention might be made that nearly $300 was contributed to this project in memory of the late Fred E. Kostash. Other recent donations were received from R. K. Hughes, Lavoy; the United Church Women's Organization, Lavoy; Rosemary Women's Institute, Lavoy; Farm Women's Union, Ranfurly; etc. All of these donations are sincerely appreciated.

NORTH PARK MERRY MAKERS SPONSOR DANCE

VERMILION — Friday, Nov. 16 was the date set by The North Park Merry Makers for their dance, to be held in North Park Hall, with music by The Happy Hillbillies.

Dances and other events conducted by the North Park Merry Makers are invariably of exceptional quality and the town and surrounding areas look forward to these activities.

Music by the Happy Hillbillies is always excellent and adds greatly to the success of the dances.

Weather Hampers Road Making

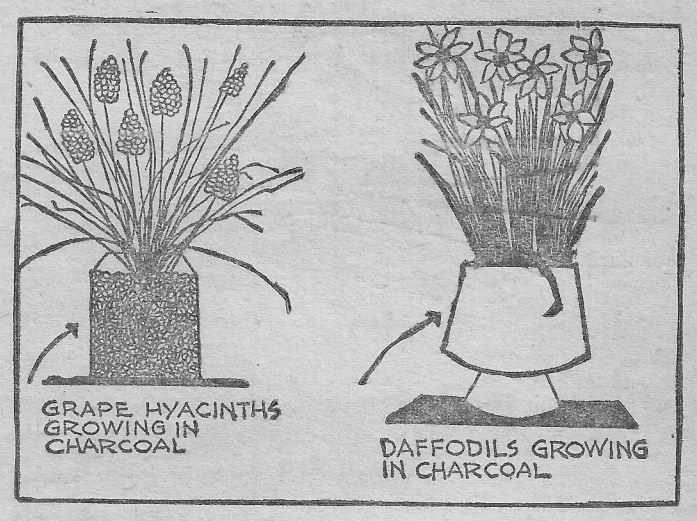
VILNA — Poole Construction Company found the weather so cooperative that they decided to put a special cover coat on their soil cement base as an extra gift to the winter motoring public.

Due to the absence of detours caused by large lakes, traffic was often routed on to the road before the cement hardened.

As a result deep grooves were cut that could play havoc with winter-iced roads. This was evened out by the extra coat of tarred rock.

There is always the danger of remembering too much.

Garden Graph



Bulbs Blooming for the Holidays

Even the apartment dweller can have bulbs blooming easily indoors this winter. As the bulbs have food stored up within themselves, they do not require soil to bloom, merely the correct temperature and moisture.

The paper white or yellow (Soliel d'or) narcissi and Dutch and Roman hyacinths are the easiest to force, but others may also prove successful.

These bulbs can be grown in pebbles and water, peat moss or bulb fibre or, as shown in the accompanying Garden-Graph, in charcoal.

Fill a glass jar or other container within half an inch or so of the top with hen-sized poultry-grit charcoal. Pour water into the jar until the charcoal is floated free from the bottom.

Then, stir the charcoal and water to make sure that the charcoal is free of compactness. Then add more water to replace that absorbed by the charcoal. The bulbs are then nested to about half their depth in the charcoal.

Store them away in a dark cool place; they probably won't need additional watering for at least a month. After their root growth has been established (usually four to six weeks), bring them out into the light. Keep them cool because too much heat will grow weak stems.

November is a good month to start bulbs, although they can be started later.

Britain Harvests Largest Grain Crop Since World War II

The 1962 grain harvest in Britain has been the largest since World War II, according to the Canadian Agricultural Counsellor in London. He says wheat production should total about 120 million bushels, barley 234 million and oats and mixed grain 123 million bushels. Much of the grain harvested is higher in moisture content than normal, he states.

Donna Graham Polio Patient, Paints By Mouth

In tiny print on the inside of the Christmas card are these words: "Painted by Mouth by Donna Graham."

Donna Graham, stricken by polio in 1953 is totally paralyzed and spends her nights in an iron lung. A patient at the University Hospital, through training in occupational therapy and an almost super-human will, she has learned to paint, holding the brush in her mouth.

She has designed and executed two series of Christmas cards, each in a style which is most distinctive and starkly simple.

One card is in Merry Christmas red with scurrying white figures doing last minute shopping and bringing in the tree. The other is white on royal blue portraying the story of the Star of Bethlehem.

Born in Saskatchewan, Donna took her schooling and nurse's training there. She has done a number of oil paintings, and one of her pictures is in the Edmonton Art Rental Gallery. She has entered international competitions, and recently illustrated three slim volumes, written by Edmonton author, Ruth McDonald.

In poetry and in prose the books are: Prairie Silhouettes, Heir Conditioned and Love's Eyes. Donna's illustrations have the light touch, the uncluttered line, which also makes her Christmas cards stand out.

They are packaged in groups of ten and are available in Edmonton stores.

Coffee Party At The "Mac" Held For Wives Of Delegates

The Sun Publishing Co. and Radio Station CFRN-TV sponsored a joint coffee party on Thursday morning in the Rupert's Land Suite at the Macdonald Hotel in honor of the wives of the delegates to the 54th annual convention of the Alberta Municipal Districts and Counties.

T. W. Pue, Publisher, welcomed the ladies on behalf of the Sun Publishing Co.

G. R. A. Rice brought greetings from Radio Station CFRN-TV, and introduced Mrs. Rice.

Mr. Pue then introduced Mrs. Pue, writer of "Debbie's Diary", a column in "The Alberta Country Life." Other members of the Sun Publishing staff were presented to the gathering.

George Kidd, well-known commentator of CFRN-TV introduced leading personalities from Radio Station CFRN-TV.

The atmosphere was friendly and informal as the women met and chatted.

Mrs. J. M. McKay of Brant, wife of the president of the Alberta Association of Municipal Districts, said that she has attended the conventions for the past eleven years and the eleven coffee parties given by Sun Publishing Co. and CFRN-TV. She stated that she thoroughly enjoys the opportunity of meeting other women from all parts of the province and to renew acquaintances year after year.

A highlight of the morning was the drawing of the door-prize ticket. Mrs. W. S. Ungeran of Smoky Lake won the beautiful glass vase centrepiece. Mrs. Ungeran, like most councillors' wives, lives on a farm. She has two children, Jimmy and Alice. She stated that she was enjoying the convention. She was in the company of Mrs. R. Kuzminski, Mrs. John Skuba and Mrs. Nick Palech, all of Smoky Lake.

Mrs. "Mickey" McKay thanked the hosts of the morning for arranging the coffee party every year. She said "It certainly is much looked forward to and enjoyed by the visiting ladies, and winds up the social activities of the convention on a warm and friendly note."

Murder Hints Still Coming

The coroner who ruled that movie star Marilyn Monroe's death was a "probable suicide" says authorities still get letters suggesting that she was murdered.

"But police made a thorough check of that possibility and reported there was absolutely no indication of foul play." Dr. Theodore Curphey, coroner for Los Angeles county, said Saturday.

Virginia Hewko And R. Kolach Seal Wedding Vows With 2 Rings

SARRAIL— A wedding took place recently when Miss Virginia Newko and Mr. Raymond Kolach exchanged wedding vows at St. Peter's and Paul's Greek Orthodox Church at Sarrail. Rev. Mr. Steffenuik officiated.

Virgina, the eldest daughter of Mr. and Mrs. Andrew Hewko, was lovely in an embossed floor length gown featuring a square neckline with rhinestones and pearls, and lily-point sleeves. Her plain three layer veil was held in place with a crown which consisted of pearls, sequins and rhinestones with pearl droplets hanging in the front of the crown.

Given in marriage by her father, Virgina carried a beautiful bouquet of red roses with rosebud streamers.

Miss Juliana Kolach, sister of the groom, and Miss Carole Marchak and Miss Mary Anne Kit, friends of the bride, were bridesmaids. They wore matching turquoise embossed dresses with matching headpieces and tiny veils. They carried bouquets of turquoise and white carnations and all wore three quarter length white gloves. Their jewellery consisted of pearl ear-rings and droplet nectlets, gifts of the bride.

Flower girl was Gloria Kolach, sister of the groom. Gloria was charming in a white frock and headpiece and carried a matching bouquet.

Best man was Eddy Hewko, brother of the bride, and attendants were Bill Letwin and Peter Kmech.

Ring bearer was Terry Hewko, cousin of the bride, who carried a cushion for the rings.

Mrs. Anderw Hewko, the bride's mother, chose an embossed beige sheath dress with a matching fur head band.

To receive her guests, Mrs. Kolach wore a brown lace over taffeta dress with a matching hat.

A reception was held at the Boyle Community Center for some 500 guests. Mr. Andrew Shwetz proposed the toast to the newly-weds and gave them warm wishes.

The bride's table was centered with a three-tiered wedding cake with white candles decorated with flowers.

The young couple received many gifts and a purse of money. They will reside in Edmonton.
